Difficulty

The tour is quite challenging and is aimed at medium-trained cyclists. The climbs are not particularly long, but the ups and downs of the trail require some practice in cycling and have already faced routes of 40-50 miles. The route is all paved except 5 km along the river Tevere in the first stage. You can deal with any bike, but in some stretches the road, although paved, is often disconnected so we suggest to use a MTB or Hybrid bike.

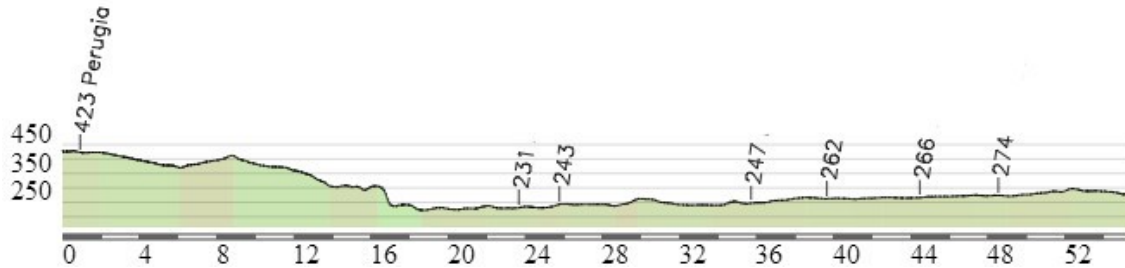

ITINERARY

Day 1: individual arrival in Perugia and accommodation in 4 star hotel.

Day 2: Perugia - Città di castello, 56 km, elevation 350 m.

Stage without hard climbs along the river Tevere. Along the way you can visit the medieval town of Umbertide. Accommodation in 4 stars hotel in the city center.

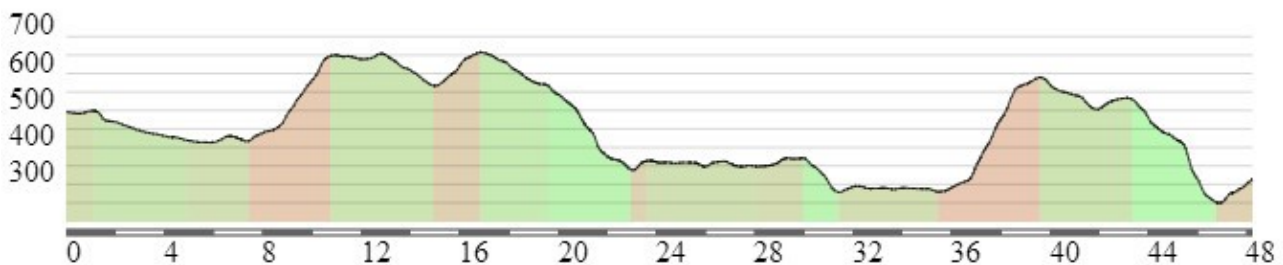

Day 3: Città di castello – Gubbio 59 km, elevation 1200 m

Itinerary more challenging and fascinating than the last one. 60 km of ups and downs entirely on the San Francesco's pilgrimage route. Accommodation in 4 star hotel in the city center.

Day 4: Gubbio – Assisi 49 km, elevation 900 m.

Another wonderful day entirely on the path of San Francesco. You will follow a beautiful country road and pass from the Benedictine abbey of Vallingegno and the town of Valfabbrica, a small medieval center. Once arrived in Assisi you can decide to cycle until the 'eremo delle carceri' (the famous cave where San Francesco retired to pray) with a climb of 6km. The accommodation is provided in 3 star hotel with swimming pool just outside the city (10 minutes walking).

Day 5: Assisi – Spoleto 60 km, elevation 700 m.

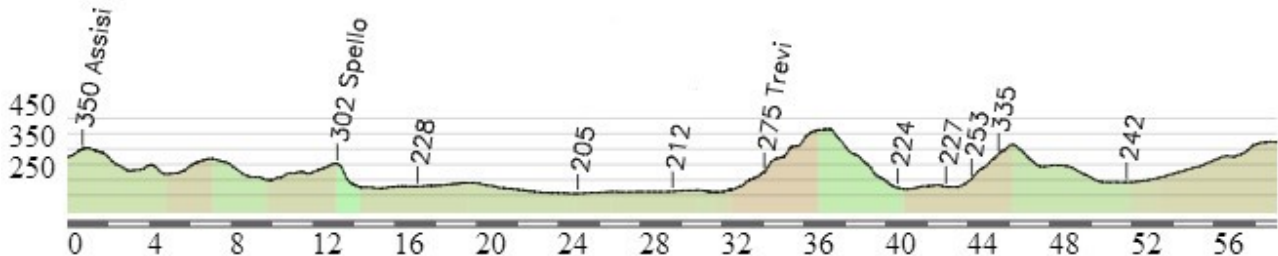

In the fourth leg of the tour you will visit some of the most characteristic villages of the hinterland of Umbria. The first important city you visit is Spello, a town in which there are numerous Roman and Renaissance

evidences. Continuing you'll pass through the cities of Foligno and Trevi.

Trevi and Spello are inserted among the most beautiful villages of Italy and they received the orange flag by Touring Club. The itinerary will end in Spoleto. Accommodation is provided in 4 stars hotel with pool.

Once you arrive in Spoleto you can cycle until the shrine of Monteluco (7km of climb), to visit the place where San Francesco retired to pray.

Day 6: Spoleto – Perugia. 49 km , elevation 350 m.

he Cycling to S. Maria degli Angeli, from there 20 min by train to Perugia.

Spoleto is the most southern point of the tour, from there you'll return in north direction towards Perugia.

During the stage you can visit the villages of Montefalco and Bevagna, inserted among the most beautiful villages of Italy and received the orange flag by Touring Club. Continuing you'll arrive at S. Maria degli Angeli, where the bike itinerary ends. There isn't a better place to conclude a tour on San Francesco's roads. Here you can visit "Porziuncula", a ruin where St. Francis founded, in 1209, the Order of Friars Minor. You go back to Perugia with a 20 minutes train from Assisi train station. Overnight at 4 star hotel.

Giorno 7: End of services and departure. Possibility to book extra nights.
